09 Integrated Gateway Capability

10 Why RSG

11 Partner with RSG

WHO WE ARE

A focused maritime gateway, built in Jordan for regional trade.

Red Sea Gateway Maritime (RSG) is a maritime & shipping solutions provider operating from Jordan, with offices in Amman & Aqaba. RSG gives shippers, carriers & cargo owners access to the Red Sea through Aqaba, & connects that access to the markets that shape Jordan's container trade: China, Southeast Asia & the Red Sea region.

RSG combines an experienced team, practical port knowledge & a data-led reading of Jordan's shipping environment. Owned depots, an inland fleet & integrated logistics systems give the platform its operational depth from the vessel to the final destination.

OUR VISION

Powering a world of connected gateways across global trade.

THE RSG PROPOSITION

Maritime Gateway + **Commercial Activity** + **Regional Connectivity** + **Market Intelligence** + **Logistics Infrastructure**

01

OPERATING BASE

Jordan, through the Port of Aqaba

02

OFFICES

Amman & Aqaba, Jordan

03

FOCUS MARKETS

Red Sea, China & Southeast Asia

OUR SERVICES

Integrated maritime & logistics solutions, end to end.

01

Sea Freight

FCL & breakbulk shipping on lanes linking Jordan with the Red Sea, the Far East, Southeast Asia & beyond.

02

Port Operations

Vessel calls, berthing coordination, cargo operations & turnaround at Aqaba & regional ports.

03

Vessel Chartering

Tonnage solutions for regional feeder, project & bulk requirements.

04

Line Management

Commercial & operational representation of shipping lines in Jordan & the Red Sea.

05

Logistics

Inland transport, depots, customs clearance & door-to-door delivery across Jordan & the region.

SUPPORTING CAPABILITIES

- Customs clearance
- Container depots
- Inland & cross-border trucking
- Project & heavy-lift cargo
- Dangerous goods (DGR)
- Air cargo via Queen Alia International Airport
- Contingency rerouting & storage

INDUSTRIES & CARGO EXPERTISE

Secure, efficient & timely cargo movement across diverse industries.

Food Products

Reefer & dry containers for foodstuff in both directions.

Agricultural Fertilizers

Recurring containerized & bulk fertilizer flows.

Potash & Phosphate

Jordan's core mineral export base.

Chemicals & Hazardous Materials

DGR shipping under strict dangerous goods requirements.

Pharmaceuticals

Secure, timely movement of medical & pharmaceutical cargo.

Project, Heavy-Lift & Bulk

Oversized & complex industrial shipments, port to site.

General Cargo & Machinery

Machinery, raw materials, spare parts & consumer goods.

Garments & Manufactured Goods

Textiles, plastic products & industrial exports.

HUMANITARIAN & RECONSTRUCTION

Relief logistics across the region.

- Gaza humanitarian aid & reconstruction supply chains
- Syria rebuilding & infrastructure rehabilitation
- Emergency relief & medical supplies across the Levant

THE RED SEA GATEWAY

Aqaba → Red Sea → Regional Markets → Global Trade

Aqaba sits at the head of the Gulf of Aqaba, Jordan's direct opening to the Red Sea. Southbound, Jordan's trade runs through Bab el-Mandeb towards the Gulf, the Indian Subcontinent, Southeast Asia & China.

Within the Red Sea, Sokhna & Jeddah connect Aqaba to Egyptian & Saudi trade & to regional feeder activity. RSG works this northern Red Sea link from its base in Aqaba.

AQABA & SOKHNA LINK

Two ends of the northern Red Sea: Aqaba & Sokhna.

Sokhna, on the Gulf of Suez south of the Suez Canal, is a key part of RSG's Red Sea network. Working from Aqaba, RSG connects both sides of Sinai, linking Jordanian & Egyptian trade & regional cargo movement.

NETWORK & EXPERTISE

Sokhna in the RSG network.

Sokhna connects RSG's network to Egypt, close to the Suez Canal & the main Red Sea shipping lane.

Together with Aqaba, it allows RSG to coordinate cargo, vessels & partners at both ends of the northern Red Sea.

Red Sea connectivity

A key northern Red Sea port in the RSG network.

Regional feeder activity

Built on Aqaba, Sokhna & Jeddah corridor experience.

Jordan trade

Connecting Egyptian & Jordanian trade flows.

Egypt access

Network access to Egypt for cargo owners, carriers & partners.

Coordination at both ends

Aqaba & Sokhna managed as one connected lane.

ABOUT JORDAN

A stable gateway to the Levant, the GCC & Iraq.

The Port of Aqaba is Jordan's only seaport & a critical corridor for regional & transit cargo. Economic reform, trade facilitation & customs modernization support a stable business environment.

The Aqaba Special Economic Zone offers reduced customs duties, tax incentives & streamlined import & export procedures, while digital customs clearance continues to shorten cargo processing.

REGIONAL ACCESS FROM JORDAN

Iraq

Aqaba to Iraq corridors to inland destinations & the Port of Umm Qasr.

Syria

Established cross-border land freight routes to Syrian ports & inland cities.

Palestine

Coordinated land freight via King Hussein Bridge & King Abdullah Bridge.

PORT OPERATIONS & MARITIME EXECUTION

Practical port knowledge, from berth to departure.

01 **Pre-arrival**
Port formalities, documentation & berth coordination with the port & terminal.

02 **Arrival & berthing**
Local representation for vessel owners & operators calling at Jordanian ports.

03 **Cargo operations**
Container, general, RoRo, project, heavy-lift & dangerous cargo handling.

04 **Husbandry & supplies**
Husbandry services, ship chandelling & vessel needs during the call.

05 **Departure & turnaround**
Port-related costs & dues settled, vessel turnaround managed.

OPERATING KNOWLEDGE

- Aqaba port operations & terminal environment
- Vessel call planning & coordination
- Port-related costs & port dues
- Line management & sea freight
- Feeder operations & regional port coordination: Aqaba, Sokhna & Jeddah

Delivered by RSG's ship agency, port operations & line management teams.

COMMERCIAL & LOGISTICS INFRASTRUCTURE

The physical chain behind the gateway.

Each stage below is part of the RSG operating chain, used to take cargo from the quay to its final destination under one coordinated plan.

PORT → DEPOT → TRUCKING → CUSTOMS → CARGO → DESTINATION

01 **PORT** — Aqaba port & vessel operations, agency representation & terminal coordination.

02 **DEPOT** — Inland container depots supporting storage, handling & contingency operations.

03 **TRUCKING** — Dedicated trucking fleet with specialized trailers for domestic & cross-border transport, with live GPS monitoring.

04 **CUSTOMS** — Clearance under Jordanian regulations, including inspection, testing & JFDA approval processes.

05 **CARGO** — Containers, general cargo, RoRo & heavy lifts. ADR-certified dangerous goods transport. Warehousing & cold chain.

06 **DESTINATION** — Domestic & cross-border land freight, with door-to-door delivery for projects.

INTEGRATED GATEWAY CAPABILITY

Not a standalone contact point. A gateway that carries cargo beyond the port.

01

Maritime

Agency, husbandry, line management & vessel chartering

02

Port Operations

Aqaba vessel calls, terminal coordination & port costs

03

Commercial Cargo

Import & export cargo development with shippers & carriers

04

Inland Logistics

Specialized trailers, heavy-lift & cross-border land freight

05

Depots

Container depot service & in-house depot operations

06

Customs

Clearance, inspection & regulatory approvals in Jordan

07

Regional Connectivity

Aqaba, Sokhna & Jeddah, with China & Southeast Asia lanes

08

Market Intelligence

Per-port, per-month tracking of Jordan's container trade

COMMERCIAL

Commercial front & regional focus

MARITIME

Port & vessel execution

LOGISTICS

Inland, customs & cargo infrastructure

WHY RSG

What sets the gateway apart.

01	**Gateway Position** Aqaba & Red Sea access	Offices in Amman & Aqaba, with a Red Sea network covering Sokhna & Jeddah.
02	**Regional Reach** China, Southeast Asia & Red Sea	Connecting Jordan with China, Southeast Asia & Red Sea markets.
03	**Commercial Capability** Import & export exposure	Active across both import & high-volume export flows.
04	**Operational Infrastructure** Depots, inland logistics & customs	Owned depots, inland fleet, customs clearance & warehousing.
05	**Maritime Expertise** Agency & port operations	Ship agency, husbandry, port operations, line management & vessel chartering.
06	**Logistics Execution** End-to-end logistics	Project cargo, heavy-lift & DG shipments coordinated across port, inland transport & customs.
07	**Market Intelligence** Data-led view of Jordan's shipping	Continuous tracking of Jordan's container trade by origin, destination & trade lane.

PARTNER WITH RSG

Connecting global trade with trust & performance.

WHO WE WORK WITH

- Shipping lines
- Vessel owners & operators
- NVOCCs & MVOCCs
- Freight forwarders
- Exporters & importers
- Project & industrial cargo owners
- Humanitarian & relief organizations
- Port & logistics partners
